

Become a Certified Management Consultant

17th April ~ 21st April, 2018

DTA International
CONSULTANCY

9:00am ~ 2:00pm

DTEC 1- DSO THUB

The corporate world today demands instant turn key solutions to its intricate transactions, and playing smart is the only solution. With the help of Certified Management Consultant® Program, understand and develop your professional consultancy skills. Starting with an introduction to management consulting, our intensive five-day program is built around a challenging and comprehensive curriculum that will enhance your managerial skills and leadership abilities.

The International Management Consultation certification is offered in collaboration with IMCB, USA. This certification increases your opportunities and open new doors for you in the corporate world. An internationally recognized certification that offers learning of highest standards of consulting profession.

- Learn the stages in the consultancy cycle and develop practical understanding of risks associated with each stage
- Understand the significance of building effective relationships with clients
- Identify and learn the best use of communication practices available to the management consultant
- Become a qualified practitioner, who is assurance to clients for best global business management practices and standards.

Dates are subject to change, Course will be conducted upon atleast six registrations.
